Education

National Institute of Technology, Kurukshetra

July 2023 to May 2026

Master of Computer Applications , CGPA: 9.0652

Devi Ahilya Vishwavidyalaya, Indore

July 2021 to May 2023

Bachelor of Computer Applications , Percent: 76.19

Higher Secondary CBSE , Percent: 73.60

Pass out 2020

Secondary CBSE , Percent: 73.60

Pass out 2018

Work Experience

Software Intern at Jarnox

May 2025 to Present

React.js, Python, Fast API, PostgreSQL, Dbeaver

1. Built modular and responsive UI components in React.js.
2. Created backend **Fast API endpoints** to support trading logic, user actions, and stock pattern analysis.
3. Wrote optimized **SQL queries** for querying financial data used in stock pattern recognition.

Projects

Kanoon Sarathi is an AI-driven legal research platform built to simplify and accelerate how practitioners interact with vast volumes of Indian case law.

1. Developed the user interface using **HTML, Bootstrap, and JavaScript**.
2. Built **Python Django backend views (APIs)** that interact with the **Apache Jena Fuseki** RDF triple store, handling frontend requests, executing SPARQL queries, and returning structured responses.
3. Wrote Competency questions and validated **SPARQL queries**.
4. Hosted the Django server and database on render using **docker** container.

<https://kanoon-sarathi.onrender.com>

Upwise

1. Built a scalable ed-tech platform with three roles: **Student, Instructor, and Admin**.
2. Designed **RESTful APIs** using **Express.js** and Integrated **JWT** for secure **authentication** and **authorization**.
3. Used **Redux** for global state management and data consistency.
4. Managed course data and user records with **MongoDB Atlas and Mongoose ODM**.
5. Integrated Google Gemini API. Also planning course-specific model training for concept-based assistance.
